**Jeremy Swinarton**
647-637-8195
jeremy@swinarton.com

I am a **full-stack software developer and experienced team leader**. I can architect solutions to big problems and assemble the teams that build them.

Skills

- Adept at building web application software using a range of tools, languages and programming styles (including object-oriented and functional).
- Capable of managing the entire lifecycle of software development, including version control, code review, unit and end-to-end testing, deployment and debugging.
- Strong leadership and communication skills.
- Experienced graphic designer, writer and copyeditor.

Software Toolkit

(ELIXIR/ERLANG) (GRAPHQL) (PYTHON) (JAVASCRIPT)
(RUBY/RAILS) (AMAZON AWS) (SQL) (GO) (PHP/WORDPRESS)
(HTML5) (CSS3) (UNIX ADMIN) (ANSIBLE) (JAVA)
(GIT) (REST/HTTP) (AMQP) (REDIS) (LUA)

Work Experience

I'm currently working as an indpendent contractor! See the last entry for more detail.

Lead platform engineer — WE Charity   June 2017 – May 2018
Lead developer on WE's SaaS platform. I worked alongside a talented team to architect services that will replace legacy components, ensuring that new software is built using a modern toolkit and workflow.

Software engineer — Kinetic Café   Feb 2016 – June 2017
Polyglot engineer on multiple client projects with varying requirements and tech stacks, including: an API service and data-processing toolchain for the Reco iOS app, which was featured twice on the Apple App Store; a web-based mall mapping app for Ivanhoé Cambridge using Vue.js; and services for Kinetic's retail SaaS platform, written in Ruby and Elixir and serving APIs with GraphQL.

Full-stack web developer — Rubicon Project/Chango   Feb 2013 – Sep 2015
Developer for chango.com. I rebuilt Chango's existing WordPress website using a modern toolkit (Python/Django). I also contributed to Chango's internal web dashboard, which was used by clients to manage their programmatic ad spend.

Freelance designer/developer/writer — various clients   2008 – present
Creator of award-winning data visualization, editorial, and web marketing projects. Clients include Al Jazeera English, the Toronto Star, Joist, Dying with Dignity Canada and Oxfam Canada.

Education

York University/Sheridan College Joint Programme in Design   2012
Honours Bachelor of Design (Member of Dean's Honour Roll)
